East Cheshire NHS Trust

Library News

There are lots of exciting developments coming along in 2023. In the summer we are moving into a new library space. Plans are at an early stage but the new library will include more quiet study space and IT facilities. We are also moving to a new library management system which will allow us to integrate our books with our electronic resources for more seamless access to information. It will also allow us to share books across the region giving you easier access to additional resources. You'll be able to borrow more books and have automatic renewals. Watch this space for more information during 2023!

The new intranet - connECT - is launching soon. The library has a page on here with links to our key information and resources: https://nhs.sharepoint.com/sites/RJN_Home/libraryservice

Holly has been delivering evidence-based practice sessions for departments and teams. Get in touch if you would like something similar for your team.

New LGBT+ books

The library has a new collection of LGBT+ books available to borrow. Topics include LGBT+ history, mental health and wellbeing, gender identity, and creating an LGBT+ inclusive workplace.

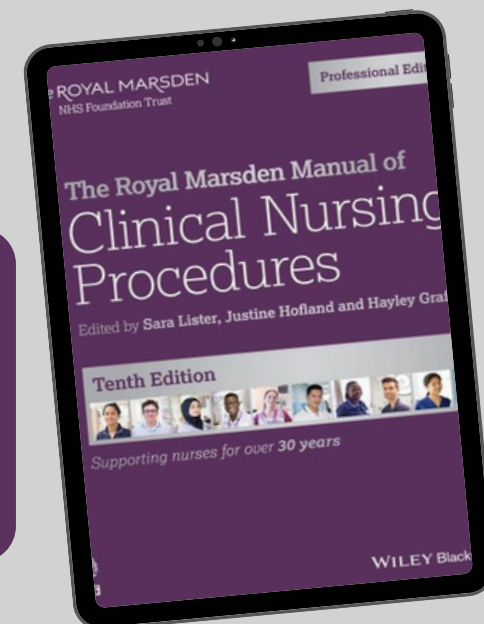

GETTING PUBLISHED - BMJ CASE REPORTS

Did you know that the Library subscribes to BMJ Case Reports?

Write up your case and get published!
