## How to access eBooks

We have a growing collection of electronic books (eBooks). These are all available to view online and/or download to your device (tablet or phone) for easy access 24/7. Accessing eBooks allows you to search within the book for specific keywords or phrases, so you can just read the relevant sections. Search our collection of eBooks online at: [macle.cirqahosting.com](http://macle.cirqahosting.com) or following the link from the library website.

Change 'Media Type' to **ebook**

Click a title to open the record

Click the 'Read me ...' button to open the e-book

No	Authors	Title (plus edition and series)	Year	Location
