Library News

Library staff are currently making sense of the explosion of COVID-19 literature. Understandably, there was a rush to publish findings but this has resulted in some poorly executed and reported research which hasn't been properly indexed. Trying to do a literature search in these conditions is frustrating so if you need help sourcing something please get in touch! There are lots of useful resources on our Covid-19 Knowledge Hub. This includes the Oxford Centre for Evidence Based Medicine and also a living map of the evidence, which we find useful. We are also producing 'Covid Specials' of all our regular Updates and Bulletins, plus a new Long-Covid Update. Let us know if you would like to receive these. www.eastcheshirenhslibrary.net/covid-19.html

GIVING YOU THE GIFT OF TIME

Library services take the 'heavy lifting' out of getting evidence into practice and give the 'gift of time' to healthcare professionals.

Health Education England: Library and Knowledge Services Value Proposition: The Gift of Time

RESOURCE OF THE MONTH

RCNi Decision Support

An interactive point-of-care tool designed to support nurses with making evidence-based decisions when assessing and treating patients. It includes more than 100 topics which focus on patient safety and reducing common errors in practice. This tool complements the Royal Marsden. It can also be used to aid reflective practice, revalidation and CPD. Contact the library to request your individual login.

RCNi **DECISION SUPPORT**

Evidence

If you would like an evidence or literature search email the search question to the library and we will perform the search for you. We will email you the search results with links to the full-text where available. Saving you time!

GETTING PUBLISHED - BMJ CASE REPORTS

Did you know that the Library subscribes to BMJ Case Reports?

Write up your case and get published!
