RESOURCE OF THE MONTH

KnowledgeShare

KnowledgeShare is our targeted current awareness service. We'll let you know when we find high-impact publications in your areas of interest, including guidelines, policy and high-level research evidence.

Alerts are emailed out every fortnight. Your alert can be as broad or specific as you need, and can be updated if your interests change. For example, you could receive all alerts on obstetrics or limit to only items related to gestational diabetes. It also includes non-clinical and corporate topics. Create yours today!
