Library News

The library staff have been busy supporting trust staff in various departments. In particular, Holly has been working on projects with Gastroenterology, Dietetics and SaLT, helping to support their CPD. We have also been supporting the digital transformation work, and have recently launched our page on the new intranet: https://nhs.sharepoint.com/sites/RJN_Home/libraryservice. You can use this new page to link to library resources and to get in touch. Alison and Sue attended the recent 'DigiTalk' day in the lecture theatre, and enjoyed showcasing our digital resources. Please get in touch if you would like us to visit your ward or department, we are keen to meet more trust staff and talk through how the library can support your evidence-based decision making, CPD, research and learning.

We have laptops available which can be borrowed by trust staff and students on placement who are doing courses and online training, or to attend online meetings.

RESOURCE OF THE MONTH

BMJ Best Practice

Creating better decisions with better evidence

BMJ Best Practice takes you quickly and accurately to the latest evidence-based information, whenever and wherever you need it. The step by step guidance on diagnosis, prognosis, treatment and prevention is updated daily using robust evidence based methodology and expert opinion.

BMJ Best Practice now includes a **Comorbidities Manager**. This supports the management of the whole patient by including guidance on the treatment of a patient's acute condition alongside their pre-existing comorbidities.

BMJ Best Practice

LibKey Nomad

More information: www.eastcheshirenhslibrary.net/libkey.html

LibKey Nomad is a free web browser extension which provides quick, easy access to our full-text content. If you are searching scholarly journals, PubMed, Wikipedia, or a variety of other scholarly sites the LibKey Nomad extension will show you if the article is available via our full-text subscriptions, with a button to directly access the full-text. If an article isn't available in full-text LibKey Nomad will provide a pre-populated form allowing you to seamlessly request the article from the library.
