

# C&M AHP Practice Educator Toolkit

Produced by C&M AHP Faculty and Toolkit Champions group. Reviewed as part of the Enabling Effective Learning Environments Delivery Plan.

Cheshire and Merseyside  
Practice Learning  
Collaborative

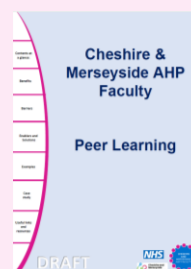

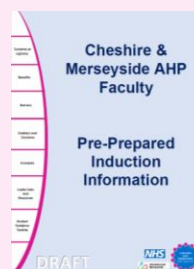

The Toolkit is a collection of 'ready-made' strategies and tools which have been 'tried-and-tested' to help increase the number of students on placement, whilst maintaining a high-quality learning environment. Not only does the Toolkit assist with expansion of placement capacity, it also contains innovative suggestions to help educators include meaningful non-clinical and alternative placement types to enhance the overall learning experience for students and trainees

## Updated AHP Practice Educator Toolkit Now Includes:

- New branding (easier to navigate)
- Interactive features
- Case studies from Toolkit-user experiences
- New clinical videos to aid skills development
- A guide to support returnees back into practice
- Student placement induction materials

## Benefits:

- Support for practice educators to facilitate quality student learning experiences
- Help teams to meet growing demand for capacity using alternative placement models
- Electronic and interactive PDF document supporting with 'greener NHS' (also printable to adjust for different learning styles)

## To Access the AHP Practice Educator Toolkit:

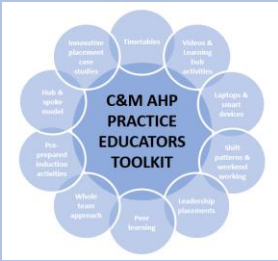

Please visit the NHS Learning Hub website: <https://learninghub.nhs.uk/>

You will need to create an account to access the Toolkit

Once signed in search "Cheshire & Merseyside AHP Faculty" to access Toolkit
